

## Interactive Programmer

---

### Description

Glois Digital Media is an interactive design and technology company in Greenville, South Carolina. We are currently reviewing qualified interactive programmers to work closely with our team to produce and maintain interactive websites and applications.

### Responsibilities

Candidate will have the following responsibilities:

- Design, develop, test, debug, and maintain interactive websites and applications
- Develop time estimates for project deliverables
- Work with interactive designers who will be responsible for creative design of interface elements and graphics

### Requirements

Interested candidates must meet the following requirements:

- Minimum of 2 years experience building interactive websites using PHP, MySQL, HTML, CSS, JavaScript, and XML
- Good understanding of object-oriented design and development
- Excellent analytical abilities and problem solving skills
- Knowledge of and experience with web server technologies – including Linux, Apache, DNS, and SSL
- Proficient in Flash ActionScript programming
- Experience with graphics software – including PhotoShop, Illustrator and InDesign
- Good oral and written communication, collaboration and documentation skills
- Strong organization skills, attention to detail and quality assurance
- Bachelor's degree in Computer Science or related field
- Experience with ASP.NET and traditional ASP applications (considered a plus)
- Experience with Windows Server technologies and databases (considered a plus)

To apply for this position, please send your resume and a portfolio of your most challenging and accomplished work to [contact@glois.com](mailto:contact@glois.com).
